<b>Document No</b>	S – WPL - 008	<b>Issue Date</b>	21 <sup>st</sup> January 2019
<b>Doc Title:</b>	Environmental Policy– WPL	<b>Revision No</b>	0
<b>Prepared by</b>	Sustainability Team	<b>Date of Revision-</b>	-
<b>Approved by</b>	Chief Executive Officer	<b>Issue No</b>	01

We, Watawala Plantations PLC firmly believe that protection of the environment is our fundamental responsibility towards society and the sustainable growth of our business.

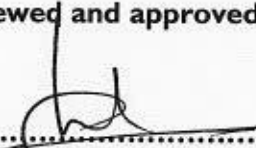

In affirmation thereof, we commit ourselves to contributing positively to the proper care, nurturing and enhancement of the environment in and around our work place in the interest of the community and the success of our business. Towards achieving this, we shall pursue environmental friendly and responsible methods in all our agricultural operations, field practices and manufacturing processes.

In the process of doing so, we will undertake the following measures;

- Progressively improve existing practices and activities for total compliance of all relevant laws, regulations, standards and requirements.
- Optimizing the use of all natural resources with improved efficiency on a sustainable basis while maximizing the management of waste in a responsible manner.
- Strive on the improvement in a continuous basis in the methods of soil conservation, less emission to the air, water management and the conservation of flora and fauna while protecting the environmentally sensitive areas.
- Conduct regular monitoring and auditing of all possible sources of pollution through aspect identification and impact evaluations and introduce corrective measures as far as possible.
- Education and awareness to all stakeholders in a manner designed to increase the level of awareness of all aspects of the environment, and its relevance, importance, care and management.
- Communicate and contribute to organization vision and direction in a simple and clear manner, thus enabling others to act.
- Achieve continual improvement by periodically reviewing and upgrading environmental management strategies, systems and objectives.
