We are totally committed to provide a safe and clean work environment to all employees and ensure their health and safety while complying with applicable health and safety laws and regulations at all times.

Towards achieving this objective we shall;

- Carry out regular health and safety risk assessments and adopt practical proactive and preventive safety precautions, procedures and rules in all plantation and processing operations/ activities to control occupational hazards, risks and prevent accidents.
- Ensure employees are regularly trained and educated on relevant health and safety aspects and will be actively involved in implementing health and safety programs and procedures, through the establishment and efficient functioning of health and safety committees spearheaded by respective managers.
- Review health and safety risk assessments, health and safety standards, programs and objectives and carry out transparent stakeholder communication on health and safety to ensure continuous improvement.
